<u>Selecting Oppose (56 comments/reasons)</u>

The decision for abortion is between a woman and her doctor. Politicians should not restrict it. (T =Temple University sample))

I don't think that the state has any business regulating reproductive choice. (T)

The regulation would put unrealistic and financial hardships on the facilities [families?] (T)

It's hard to say what is right in a situation you have no experience in. (T)

Downs syndrome is not a death sentence or a determination of the child's quality of life. (T)

The state's interference diminishes medical privacy and creates a risk of the patients turning to unsafe alternatives. (T)

I don't personally believe in genetic selection but I don't support legislating those decisions on the basis of abortion. (T)

It is an individual's right to make a decision about their own situation. (T)
Again the women's right to choose is paramount especially because her and her partner (if available) will likely die before the child and then how is the child cared for?

Legislators are assigning a life sentence for some without due process.
